WHO WE ARE

We don't just upgrade roofs. We upgrade lifestyles.

We specialise in turning cold, noisy conservatories into comfortable, energy-efficient rooms you can use every day of the year. Over more than a decade of roof conversions we've replaced outdated polycarbonate and glass roofs with fully insulated solid systems for thousands of homeowners.

Whether it's an extra family room, a sunlit office or a year-round garden retreat, every solution is tailored to your conservatory — expert craftsmanship, modern materials and an eye for design, delivered by trades employed directly by us.

TRUSTED BY HOMEOWNERS ACROSS
THE UK & IRELAND

OUR STANDARD

Every project, the same standard of care.

With over 25 years in the industry, our expert team handles each project with the same care from first point of contact through to final inspection. We deliver high-quality craftsmanship at a fair price — and make you fall back in love with a conservatory you'd stopped using.

Our aim isn't only to give you a usable space all year round; it's to leave every client glad they called us. Because all our trades are employed directly by us, quality assurance is second to none — no subcontractors, no surprises.

Directly employed trades

The team on your roof is our team, not a subcontractor.

Fixed, honest quotes

A free assessment and a written price before any work starts.

Final inspection

We don't call a job done until you say it is.

Our main areas of expertise

Specialists in lightweight roofing

Our lightweight systems keep your conservatory, orangery or garden room cool in summer and warm in winter — without structural rebuilding.

Your needs above all else

We take the time to understand how you want to use the room, then recommend the system that solves your roofing problem — not the one that suits us.

Communication that doesn't stop

From survey to sign-off we keep you in the loop on progress, and we won't call a job finished until you're happy with the work.

A full range of clients

Families looking for more usable space, and landlords making sure a property is ready to attract the right tenants.

10

YEAR GUARANTEE

Every roof we install comes with a 10-year insurance-backed guarantee — plus a 40-year guarantee on all of our tiles.

YOUR GO-TO ROOF SPECIALISTS

Whatever the shape, we can convert it.

A standard glass or polycarbonate roof achieves a u-value of around 2.8. The closer to zero the better — ours reaches 0.15, which cuts heat loss and heating bills dramatically.

OLD GLASS OR POLYCARBONATE

2.8

u-value — freezing in winter, sweltering in summer

OUR INSULATED ROOF SYSTEM

0.15

u-value — a room you'll use every day of the year

Twin-core PIR insulation

Foil-backed panels reflect heat back into the room in winter, and reflect it away in summer.

Lightweight tiles, new PVC trim

Finished with lightweight tiles in a range of colours, plus all-new fascia and guttering.

Two days on site

Start to clean-up in two days, leaving the ceiling ready to paint 7–10 days after completion.

Too hot in summer?

Too cold in winter?

Too noisy in the rain?

Our lightweight tiled roof is the answer.

BEFORE & AFTERS

The same house. A completely different room.

WE GIVE YOU THE CHOICE

Your roof changes how the whole house looks.

A conservatory roof doesn't just keep the weather out — it contributes to the value of your property and its overall appearance. If yours has seen better days, doesn't suit the design of the house, or isn't giving you the insulation you need, get in touch. Our systems are lightweight and tailored to the exact size and shape of your conservatory.

STYLES WE REPLACE

- Victorian
- Sunburst
- Lean-to
- Edwardian
- P-shape
- Gable end

**FREE
QUOTE**

Not sure which style you have? We'll identify it for you free of charge. Our team provides a written, no-obligation quote before any work begins — call **0333 057 6599**.

OUR TILES

Europe's leading lightweight tile.

We fit Metrotile — by far the most durable lightweight tile on the market, carrying a 40-year warranty. Available in a range of profiles and colours, so the roof suits the house rather than standing out from it.

Here are just some examples of popular styles/colours

INSIDE YOUR NEW ROOF

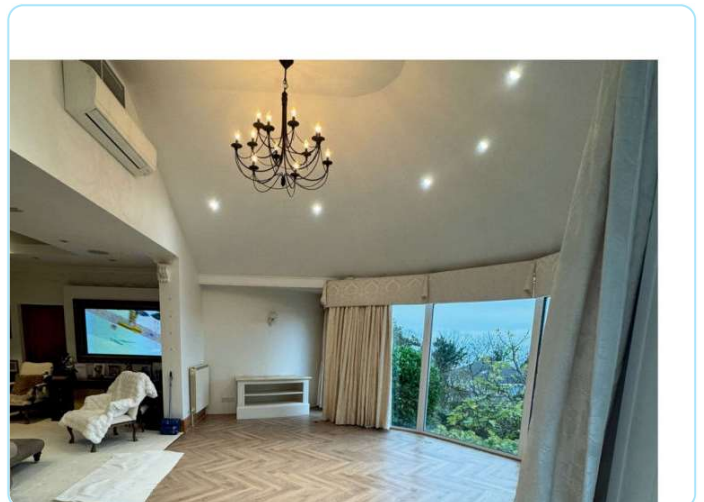

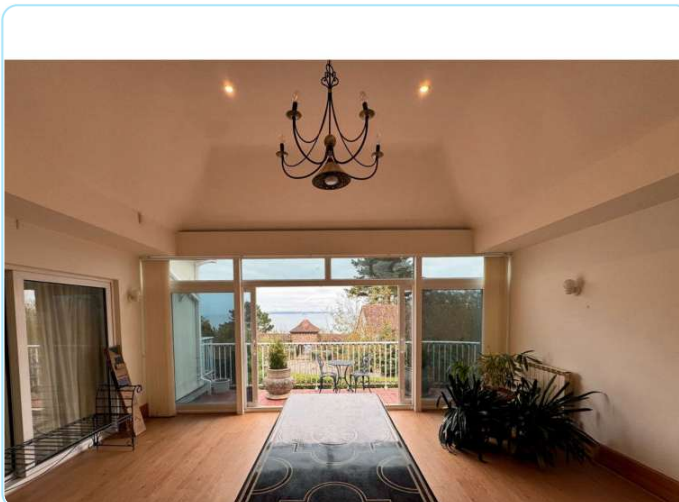

What it looks like from the sofa.

We hand the room back with a plaster skim finish, ready for you to paint 7–10 days after completion. Vaulted, flat or part-glazed with a roof lantern — the interior is designed with the room's use in mind.

SKIM FINISH, AS HANDED OVER

PICTURE PERFECT ONCE PAINTED

AREAS WE COVER

Installing across the UK, Ireland and the Channel Islands.

Northern Ireland

Our home base. Belfast, Antrim, Down, Armagh, Tyrone, Londonderry and Fermanagh.

Republic of Ireland

Dublin and the surrounding counties, with regular installations nationwide.

Channel Islands

Jersey and Guernsey — a long-standing part of our install schedule.

Great Britain

England, Wales & Southern Scotland - numerous jobs throughout.

Not sure whether we cover your postcode? Call the office and we'll tell you straight away — and book a free, no-obligation assessment if we do.
